SALT LAYERED SIDETABLE STUDIO GAMEIRO

When a side table takes centre stage.

When Studio Gameiro has an idea (and we do have many), they usually translate into different concepts, sketches, prototypes and then products.

Not everything goes from paper scratch to built form and matter, but we do tend to get things right when it means that we have projects which strive for something unique. That diversity, and the belief that one good idea can go many ways, was the starting point for the Salt Layered table.

We know that nowadays mini, sometimes tiny, tables are all the rage, but they usually lack substance, and even equilibrium.

As we went down a salt mine in the Algarve we thought that we might produce something playful, sturdy but unusual in every angle, and which could become a cornerstone in every home (good books, a glass of wine or mug of Charbonell hot chocolate, or a lamp, are welcomed on top).

So, as the story goes, not every table needs to be put aside. Put it where it fits. Nowadays nobody is quite sure where the centre is.

SALT LAYERED SIDETABLE
STUDIO GAMEIRO

Chair designed in Lisbon, handmade in Portugal

Made with moleanos stone and rock salt

Lead time: 8-10 weeks

Available upon request

Height : 50cm 19.69"

Width : 40cm 15.75"

Length : 40cm 15.75"

Weight: 85Kg 187.41lbs

Structure

Moleanos stone

Finishes options

Honed

Chiseled

Care

Daily Cleaning:

Use a soft cloth dampened with clean water or a mild soap/detergent
Avoid using chemical cleaners

Drying:

After cleaning, be sure to dry the stone with a soft cloth to prevent streaks and scratches
The rock salt is sensitive to humidity, clean only with soft cloth.

Attention to Detail:

Pay special attention to removing any residue from edges

Others

No self-assembly

Outdoor and indoor

Durable and lightweight

Rust-free

Small scratches or marks on the surface are normal due to the type of material

As a living material, it is normal for it to gradually mutate and integrate with the Moleanos stone over time
